

Nuclear Medicine Technologist

Full-time or Part-time

Do you want to work in the UK?

Trinity Medical Imaging is an independent sector imaging centre specialising in nuclear medicine. Our mission is to provide an exceptional service for patients as the premier provider for nuclear medicine and hybrid imaging.

We are currently looking for **full-time** (37.5 hours per week) or **part-time** nuclear medicine technologists to join our motivated and enthusiastic team of technologists, radiographers, and radiologists. Tier 2 sponsorship is available for non-EU applicants.

We specialise in SPECT-CT imaging, and provide a wide range of general nuclear medicine examinations. We have recently installed a GE670 Pro 16 slice SPECT-CT scanner, and also provide ultrasound services.

We are based in Sutton, a prestigious location in South West London and near the border of Surrey. With only 30 minutes to Central London, our location is ideal for staff wishing to explore the city.

Applicants should meet the following criteria:

- Certified Nuclear Medicine Technologist or
- Radiographer with post-graduate experience of Nuclear Medicine
- Knowledge and experience of a range of general nuclear medicine techniques including SPECT-CT
- Accreditation of cannulation skills
- Excellent patient skills with a caring and compassionate attitude

Duties of this role include:

- To work within the framework of the Nuclear Medicine Department, providing a professional, dedicated and patient focussed service.
- To work alongside the Nuclear Medicine Consultants in delivering a high standard of care to patients.
- To ensure accurate records are maintained for receipt, disposal, and administration of radioactive materials.

The projected salary range is £26,500 - £42,649 per annum, dependent experience in nuclear medicine.

Full training on the GE 670 Pro SPECT-CT scanner will be provided, so no previous experience of using GE scanners is required, but is preferred. Training on our radiology information system and PACS will be provided.

Continuous professional development is encouraged at Trinity Medical Imaging, and there will be opportunity to attend nuclear medicine conferences, courses, and participate in audit and research.

If you are interested in applying for this post please send a full C.V. including information on how you feel you meet the person specifications for the role to admin@trinitymedicalimaging.co.uk.

Please feel free to email us about any questions you may have about this post.
